

panel products from patriot timber

# SurePly® Premium Underlayment

Patriot Timber Products offers two warranted plywood underlayment options. The first is SurePly® Premium Underlayment. SurePly® Premium Underlayment is backed by our Lifetime Warranty for residential and non-rated commercial applications. The “x” stencil pattern on the face of the underlayment panel provides the installer or homeowner with a guide for fastener attachment. SurePly® Premium Underlayment is approved by both the major vinyl manufacturers and the TCNA (extra heavy rating) for use under ceramic tile. Each plywood underlayment panel goes through a five point inspection process. No special tools are required for SurePly® Premium Underlayment installations.

# IronPly® Premium Underlayment

The second option that Patriot Timber Products offers is IronPly® Premium Underlayment. IronPly® Premium Underlayment is backed by our Lifetime Warranty for residential applications. This plywood underlayment panel also has the “x” stencil pattern on the face for ease of installation. IronPly® Premium Underlayment goes through the same five point inspection process as the SurePly® Premium Underlayment, but is offered at a lower price point giving customers more options in the plywood underlayment marketplace.

# RevolutionPly®

patent pending

Patriot Timber Products also offers a third plywood underlayment alternative, RevolutionPly® plywood. This panel is an economically priced lauan substitute. RevolutionPly® plywood, like SurePly® Premium Underlayment and IronPly® Premium Underlayment, is a Green panel. You can use all three plywood underlayment panels with confidence knowing that they are manufactured without the use of tropical hardwoods and are manufactured using 100% plantation and sustainable wood sources.
