

TRUNORTH DECKING LIMITED RESIDENTIAL

25 YEAR **FADE & STAIN WARRANTY**

- Fade & stain resistant with 25-Year Limited Warranty
- Rice husk formula means no rotting or molding
- Never paint, stain or seal
- Eco friendly product made with 95% recycled materials
- More durable than other composite boards*
- Reversible boards with capping on all four sides
- Heat blocking technology keeps deck cooler

Built to stand the test of time.

You want the best, and we deliver the best. TruNorth® is the only company that offers wood and wood filler-free capped rice hull composite decking. Our rice hull fiber composite is made from a rice hull fiber composite that is proven to resist water penetration, which means your beautiful deck will not mold, rot, or swell. Since we encapsulate both sides, you have the comfort of knowing you can flip the boards over in the future if you damage them.

Our goal is to keep your outdoor escape looking great while being enjoyed by the whole family. Our proprietary capping helps keep your family safe from slips and slivers, prevents spilled liquids from leaving a permanent stain, reduces heat retention and minimizes fading from harsh weather.

High quality, low maintenance decking simplified.

To masterfully finish your deck, we provide a complete line of accessories to trim and complete any type of installation and design.

12' Fascia Board
Complementary fascia boards in matching colors are 5/8" x 7 1/2" x 12'.

Hazelwood

Color Matched Starborn Pro Plug® System

Slide & Go® Fastening Clips

- No visible screws
- Single boards can be removed, flipped and adjusted
- Reinforced plastic that never rusts
- Made to exactly fit our boards (not a universal clip that's just "okay")

FASCIA TOOL

Fascia installation is easy. Just pre-drill with the fascia tool and then drive the fascia screw, leaving space for expansion and contraction.

What **deck dreams** are made of.

TruNorth Rice Hull Composite Decking

Experience life from a TruNorth deck.

Twelve beautiful shades to choose from.

All TruNorth® composite deck boards are available in six bold and modern solid colors as well as six variegated hues. A full suite of complementary square edge and fascia boards in matching colors are also available.

Accuspan

With design and simple installation in mind, building your dream deck has never been easier. TruNorth® Accuspan composite deck boards feature a dual-embossed grain and come in both grooved and square edge to provide complete flexibility in your design.

The grooved edge Accuspan deck boards are compatible with hidden Slide & Go® fasteners for main deck surfaces. The square edge Accuspan deck boards are perfect for using on trim, stair treads, feature boards, and picture framing patterns. They are also the decking you want for direct fastening on main surfaces.

Both decking profiles are certified to meet Canadian, International and USA building codes and feature our best 25-year warranty for stain and fade so that your deck stays beautiful longer.

TruNorth in Hazelwood

Enviroboard

If you're looking for a fresh new deck and also looking to stick to a strict budget, Enviroboard decking is your best option. With the same superior quality, durability and wood grain features, TruNorth® Enviroboard is our most economical selection available.

Featuring a lighter weight profile than Accuspan, Enviroboard uses less material without giving you less quality.

Just because this is our most affordable option doesn't mean you sacrifice on value. In fact, we use the exact same formula and capping as our Accuspan decking, and TruNorth Enviroboard is backed by the same 25-year stain & fade warranty.

And like our Accuspan line, TruNorth Enviroboard grooved decking meets International & USA building codes and is compatible with TruNorth Slide & Go® hidden fasteners for quick installation.
